**Professional Summary** Career change sparked by curiosity & apprehension of the current Cyber Security Landscape I am interested in Blue Team related roles. I am intrigued by all aspects of Cyber Security but want to refine and hone my skills in a Blue Team Environment in a position where I can grow & learn for an organisation who takes their security as seriously as I do. Through the knowledge obtained through my Diploma of Cyber Security and Projects I intend to embolden an organisation to take the necessary steps to significantly reduce the likelihood of a Cyber Security Incident. In a field of unequal fluctuation I intend to stay up to date with Leading Edge exploits to defend an organisations information & safeguard customers who put faith in our technology to withstand attack.

## Skills Summary

Network Security	Vulnerability Management	Operating System Hardening
Incident Response	Security Information and Event Management (SIEM)	Packet Analysis
Digital Forensics	Intrusion Detection & Prevention Systems	Endpoint Security
Threat Hunting	Identity & Access Management	MITRE ATT&CK
Network Segmentation		Automation through Scripting (Python & Bash)
Log Analysis		

## Education

- Exercises with Security Onion, Splunk & Elastic Search
- Experimentation with the Flipper Zero including Radio Frequency, RFID

## **Work Experience**

Local Area Coordinator (Settlement Services International) November 2020 – Present Day

- Created Training resources, delivered training sessions with 150+ employees to support the transition of a new and challenging system for work processes.
- Created Quality Assurance materials designed for employees to ensure contract related quality requirements were met and adhered to.
- Assisting clients with the development of an NDIS plan to support people in living their life, having access to disability related supports as well as the prevention of fraud.

Local Area Coordinator (Uniting) May 2017 – November 2020

- Operated Interstate (South Australia) to assist the National Disability Insurance Agency with the rolling out of the National Disability Insurance Scheme while adhering to strict and challenging deadlines.
- Experience with managing my own personal team, providing leadership support and the management of complex time sensitive projects.

Customer Liaison Unit (Broad Spectrum Ltd.) May 2016 - May 2017

- Hand selected to be a part of a Complaints handling unit, responsible for responding to highly sensitive Ministerial Complaints with potential for media exposure.
- Organised various different contractors for the completion of time sensitive complex works with severe consequences if not completed on time or with fault.
- Built rapport with Government officials and liaised with high ranking Housing NSW officials to ensure proper communication and adhering to outcomes.
